### *Campbell Creek Trail: Temporary Closure*

- Based on recent weather conditions, a decision was made to close a short section of the *Campbell Creek Trail* between Friday, January 25th and Wednesday, January 30th to allow for the installation of the pipe under the trail. A detour route would likely result in additional clearing of vegetation and based on the thaw/freeze cycle would not be very usable. This temporary closure also allows the contractor to advance more quickly through this critical area for dog mushing and skiing. The goal is still to be east of the Tour of Anchorage trail prior to Fur Rondy races while minimizing impacts to the surrounding area.
- Please be aware that other companies, not associated with this project, are working in the area of the AWWU construction corridor and adjacent to trails in support of the 48th Avenue Road Extension and the proposed Crime Lab.
